# Yash Jumde

Full Stack Developer

9146761701 | marineryash2000@gmail.com | Nagpur, Maharashtra , India | LinkedIn | GitHub

## SUMMARY

- Full-stack developer with hands-on experience in building responsive, scalable, and user-friendly web applications.
- Skilled in frontend technologies (React.js, HTML, CSS, JavaScript, Bootstrap)
- Familiar with backend development, API integration, and modern web workflows using MongoDB and ExpressJS
- Continuously upskilling with modern tools such as TypeScript, Node.js, Python and SQL to deliver full-stack solutions.

## SKILLS

**Top Skills:**

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Design, UI/UX Implementation
- Backend & Tools: Node.js, REST API Integration, NPM.
- Platforms & Frameworks: React JS, Express JS, MongoDB, API Fetching/Integration,
- Additional Tools: Git/GitHub, Cross-browser Testing, TypeScript (fundamentals)

## PROJECTS

**Customer Relationship Management App,  Project Link**

- Created **Dashboard Screen** that features sidebar navigation, display of leads categorised by status, quick filters, and **an add new lead button** which navigates to the add new lead form.
- Created **Lead Management Screen** that displays key details about the lead, a button to edit the lead, which navigates to **edit lead form and comment management.**
- Created **lead list screen** which features a lead list with key details, filter options and sorting options and an option to add a new lead.
- Created a **new lead form** with fields for lead name, source, sales agent, lead status, priority, time to close, tags and a submit button.
- Created **sales agent management screen** which shows a list of sales agents with their names and contact information, and an option to add a new agent.
- Created a **lead status view** which features the display of leads categorised by their status, with a filter option.
- Created a **sales agent view** which leads status for all sales agents with a sorting option button.
- Created **reports page** which shows a pie chart for closed leads vs pipeline leads, a bar chart for closed leads by agents and a doughnut chart for lead status distribution.

**E-commerce App, Project Link**

- Created a **HomePage** that displays product categories along with a navigation tab.
- Created **Product Listing Page** that displays all products with product rating, price, price after discount, and discount offered.
- Designed filtering and sorting features to filter products by price, category and rating.
- Handled **Wishlist** and **Cart** management to add/remove products to/from the cart and wishlist page.
- A detailed view is available for each product with **'Add to Wishlist'** and **'Add to Cart'** options.
- Displays items in the cart, with options to remove or move them to the wishlist.
- The quantity of items can be increased or decreased, and the total price updates accordingly.
- Includes options to select or manage addresses and place an order.
- Worked on the **backend** side of this app using **Express**, **Node.js**, and **MongoDB**
- **Incorporated API** fetching to retrieve dynamic data and rendered it on the web page using custom hooks.

## WORK EXPERIENCE

**Frontend Developer, BigBrandCo., Remote**                                    **Jul 2024 - Dec 2024**
- Built and customised responsive Shopify stores for fashion and jewellery brands..
- Worked closely with UI/UX teams and integrated designs into HTML, CSS, JavaScript, and Liquid templates.
- Improved website performance, SEO, and mobile responsiveness.
- Integrated API-driven content and streamlined cross-browser compatibility.

**Career transition, Adani Group, Visakhapatnam, India**                       **Jan 2024 - Jul 2024**
- Transitioned career path from the merchant marine to frontend and full-stack web development.
- Completed professional training in React and TypeScript, building personal projects to strengthen technical foundations.

**Deck Cadet, Adani Group, Visakhapatnam, India**                              **Jul 2023 - Jan 2024**
- Supervised marine deck operations, including loading/unloading and safety compliance.
- Strengthened problem-solving, teamwork, and adaptability—transferable skills applied in software development.

## EDUCATION

**International Marine - Institute of Professional Courses, Chennai, Tamil Nadu, India** -

*BSc, Nautical Science - GPA: 9.05*

**Aug 2019 - Oct 2022**

## CERTIFICATIONS

**React Essential Training, LinkedIn**                                         **Jan 2025**

**TypeScript Essential Training, LinkedIn**                                     **Jan 2025**
